

## Glossaries

### SU Tech Support

*Video script text (7-21-16)*

**To open a glossary, click on the Glossary title** on the course main page. This will take you to the first page of the glossary, where you will see a list of entries in alphabetical order.

**Browse the glossary's entries using the tabs and links at the top of the page or search for specific entries using the search box.** When you are finished, click on the course number at the top of the page.

In some courses, glossary entries are hyperlinked throughout the rest of the course content. When you hover over these links, a question mark will appear. Click on the link and the definition will appear in a pop-up window. When you are finished reading the definition, click Ok to close the window.
